## HAND-FIRED STOVES

### MODEL 55 STOVE

Hitzer Model 55 freestanding stove exploits radiant heat output with basic traditional design. Like all Hitzer products, this stove is constructed and built with Amish craftsmanship that will be sure to last. Utilizing the basic appearance and traditional design, this stove was made to meet our customers' needs.

With a basic box-like steel structure, this stove is extremely customer friendly and heat efficient. Hitzer model 55 has a large firebox, to provide multiple alternative fuel size capabilities.

With the simplicity of this stove, it requires no electricity to operate. Hitzer model 55 is an extremely low cost stove, with a high value of heating satisfaction.

### MODEL 82 STOVE

Hitzer Model 82 freestanding stove demonstrates traditional design and originality. Model 82 is often described with consistency and heat satisfaction and was the original Hitzer Stove. Utilizing the basic appearance and box-like steel structure, this stove is extremely customer friendly and heat efficient.

This cost efficient stove has the largest firebox of all the Hitzer models, which allows for a variety of alternative fuel types and sizes. Because of the simplicity of the stove, it requires no electricity and has no moving mechanical parts. Over the years, this model has exemplified satisfaction to create hundreds of warm and happy friends.
