FURNACE STOVES

Our furnaces were designed to capture the heat produced by the stove and with the provided ductwork, distribute it directly to different locations throughout your home, workshop, barn, or greenhouse. By having extra-large fuel doors and fireboxes, this allows for multiple fuel types and sizes while providing evenly warm heat to the locations you desire. Relax and enjoy the qualities of our Hitzer furnaces!

Developed to meet customer's satisfaction, these furnaces are accompanied with multiple available options to meet your needs:

- Use as a radiant version or with an optional blower.
- Use as an air filter housing system that can accompany a blower unit.
- Use an optional water coil for heating domestic hot water.
- Use as a cost efficient primary source of heat with amazing heat outputs.

FEATURES:

Automatic thermostat control, steel construction, sliding damper system, removable ash pan, firebrick lined, pewter accents, stove bright paint, multiple fuel capabilities, and cast iron grate system for easy ash removal.

OPTIONAL FEATURES:

Radiant model, blower model, 20" x 20" filter housing for blower, and hot water coils. Blower options: 460 CFM for Model 55, 980 CFM for Model 82.

ACCESSORIES

ASH TOTES
